

# KenkoGround

## Product Description

PRE-ORDER FOR NOVEMBER SHIPMENT!

### Reconnecting with Mother Nature

The ground provides an energy source that we can feel even if we are not consciously aware of it. Pay attention when you are barefoot on the beach or on grass. Do you feel warmth? Do you feel a tingling sensation? Do you feel energized? Based on the discovery that "grounding" leads to Active Wellness, the KenkoGround is designed to help us connect to the Earth as a natural energy source. Direct contact with the ground (soil, grass, sand, ocean floor) gives our bodies natural energy to help restore our own healthful nature.

The contemporary lifestyle often causes fatigue, sleeplessness, and a general feeling of being out of balance. Unlike our ancestors who were directly connected to the ground by their bare feet, we separate ourselves from nature by using and wearing non-conductive materials, e.g. rubber, plastic, artificial flooring surfaces, etc. In other words, our feet rarely connect with the earth beneath us.

KenkoGround serves as an indoor and portable way to reconnect with Mother Nature. Simply plug it into a grounded outlet and use it under your feet while working, on your mattress while you sleep or even draped around your shoulders. Direct contact with the skin is best.

### Features and Benefits

- Anti-radiation
- Anti-bacterial
- Anti-odor
- High quality construction
- Silver and nylon conductive fabric: 20% silver, 80% nylon
- Vacuum sputtering technology: releases silver ions
- Hydrophobic technology
- Top layer with water-resistant properties
- Helps lower stress, improve sleep, overall well-being
- Helps being overloaded with harmful EMFs

Size: 18" x 36"

Weight: 254g
