A Simple Diagram of Nikken's Distribution Process

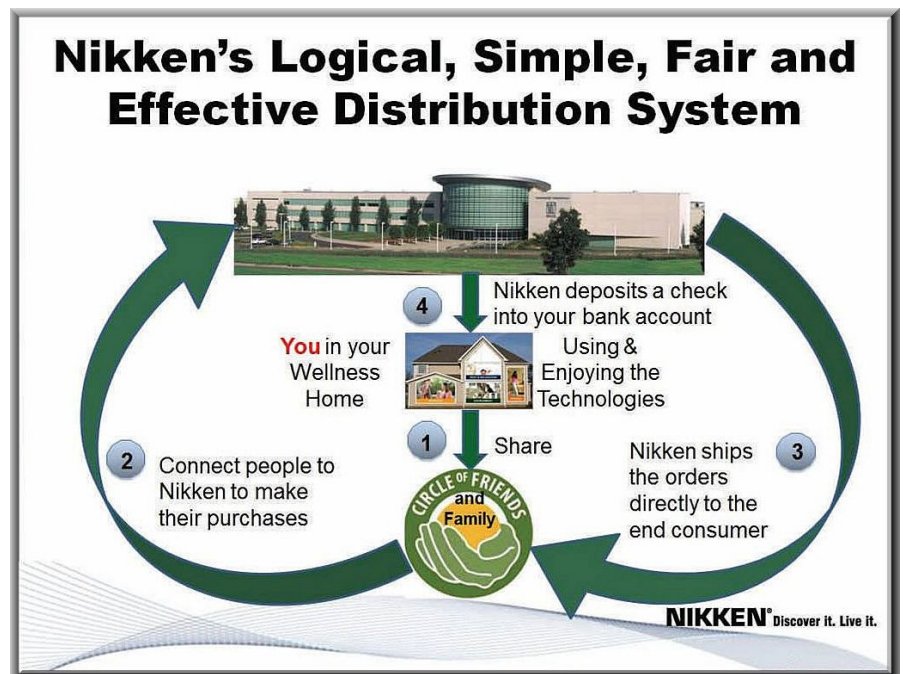

We are constantly asked to explain the Nikken marketing process and how this business works. Since we understand best in pictures, we decided to break it down into the way we “see” it and hope that view resonates for you.

Look at the picture and see YOURSELF in the middle. See your HOME. We call it YOU, Inc. or the “user” of the Nikken wellness products. How do you become a user? The simple answer is you get informed about the value of wellness using the Nikken preventative wellness technologies. That is the FIRST step...then you invest in your OWN wellness home products for your OWN health to be used in your OWN home. You see how they work and experience improvement in your health and your family's health. Then you simply follow the numbers:

1. Share your product story with others. We demonstrate, endorse and recommend what we use ourselves.
2. If they like what they hear, we connect them with Nikken so they can purchase their own products.
3. Nikken does all the hard things as shown below and distributes the products that were ordered directly to the new consumer/consultant & takes care of all the accounting and paperwork.
4. Nikken sees who sent the customer/consumer to them...and **PAYS YOU** for the referral!

The Nikken Corporation Handles:

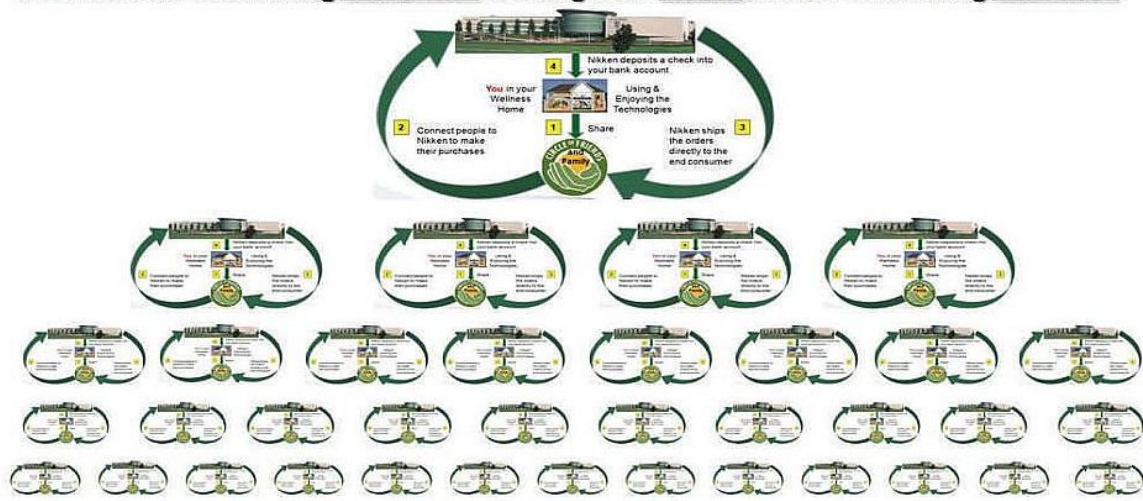

- Government Regulations
- Research & Development
- Stocks the Products
- Assumes the Risk
- Takes all the Orders
- Processes all Credit Cards
- Ships Products to Users
- Accounting
- Genealogy
- Sales Aids
- Web Support
- Tracks shipments
- Training
- Conventions

That is as simple as it gets! Just do steps 1, 2, 3 and see 4 happen. What also happens is the new person who just invested in their OWN Wellness Home products will begin to use them, create their own experiences and develop their OWN story to share.

Then step 5 begins!
