"I was first introduced to Nikken products prior to the last game of the 1994 World Cup Qualifying Soccer Tournament. I found they made a remarkable difference on the players. The results have been very positive! Nikken products promote general health and well being."

Jeff Howe, Athletic Therapist, Ontario, Canada

"In this changing health-providing atmosphere I have begun to look at results rather than my personal prejudice. We are seeing high success rates. The potential is amazing. Please consider testing this for yourselves and see what kind of results you get."

Dr. M. Newman, M.D., P.S., Washington

"I have observed striking improvements and am working with physicians, chiropractors, physiotherapists and other health professionals and even more people without health care backgrounds. And the face of health care in America I see irrevocably changing."

Dr. William Lampard, M.D., New York

"Ihor, your introduction of Nikken products and my subsequent use of them with unbelievable results is astonishing to me when I prided myself as being a very capable health practitioner for 45 years. The results gained by my wife, my friends and patients is presently beyond my logical explanation, but the fact remains, the products work. When I think of all the things that Nikken can do and has done for others, I'm only too happy to share the mission and the product knowledge I have. Now, with your support, I find people are calling me from some very far away places to thank me for having shared this exceptional company and opportunity. It's such an easy thing to be able to share what this company is all about. It's been terrifically rewarding for me."

Dr. C. Harry Roder, D.C. Renowned International Lecturer, Texas

"I first heard about the application of these products at the 1994 meeting of the American Academy of Sports Physicians. I did not become interested in their use until it was introduced to me successfully by one of my patients. I was impressed with the clinical results and felt that further investigations were warranted. It was clear that patients readily accepted these non-medical devices and in many cases requested purchasing them. Some went to the point of becoming distributors. The use of these devices in our practice has been rewarding and exciting."

Dr. Mitchell Goldflies, M.D., S.C., (Sports Medicine) Illinois, USA

"I certainly am impressed with the Nikken products. We have had some excellent results. I will certainly tell many of my other colleagues about your products. I hope we can work together to a greater degree when I return from the Olympic Games acting as a physician for the track and field team."

Dr. John Russell, Florida, The Athletics Congress of the USA

"As the saying goes, seeing is believing...something undeniable is occurring. Nikken products are for real! This is BIG! This is leading edge. Be proud that you had the foresight and good sense to become a Nikken distributor."
